Deadline for manuscript submissions:  
**closed (20 July 2022)**

### Message from the Guest Editors

Dear Colleagues,

This Special Issue will consist of selected excellent papers from the 2022 4th International Conference on Image, Video and Signal Processing (IVSP 2022), which will be held in Singapore, on 18–20 March 2022. Contributors will be invited to submit and present papers in a wide variety of areas from concepts to applications. Topics of selected papers will include the latest research results and perspectives for future work in the image, video, and signal processing field. Related submissions outside the conference are also very welcome.

IVSP 2022 aims to provide researchers and practitioners from academia and industry with a forum to report on the latest developments in video, image, and signal processing, multimedia, and computer graphics.

This Special Issue is dedicated to demonstrating recent advances in the image, video, and signal processing field. Papers may report on original research, discuss methodological aspects, review the current state of the art, or offer perspectives on future prospects.

an Open Access Journal by MDPI

da Vinci 32, 20133 Milano, Italy

## Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
