Message from the Guest Editor

Dear Colleagues,

Building materials is an interesting research field bringing together experts from many different fields of research: material scientists, civil engineers, physicists, and chemists, to name just a few. The broad research community reflects the broadness of the actual scope of building materials. To celebrate this diversity, we want to highlight the innovativeness of construction materials in this Special Issue. If you think your novel research contributes to the innovativeness of this family of materials, then use this Special Issue to share your exciting research with the expert community.

It is my pleasure to invite you to submit an article for this Special Issue on **Innovative Building Materials**. This Special Issue seeks to showcase original research, both experimental as well as theoretical. Full papers and reviews are welcome.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo

Dipartimento di Fisica,
Politecnico di Milano, Piazza L.
da Vinci 32, 20133 Milano, Italy

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
