Deadline for manuscript
submissions:

30 November 2024

Message from the Guest Editors

Dear Colleagues,

Over the last few years, neural network applications have thrived in almost every domain of modern science and technology. For this Special Issue, we invite submissions exploring recent advances in the application of neural networks in sensors and microwave antennas. Topics of interest for this Special Issue include, but are not limited to, the following:

- Sensor data processing;
- Implementation of neural networks in sensor devices;
- Machine-learning-based sensor calibration;
- Artificial-intelligence-driven antenna design and optimization;
- Neural-network-based smart antenna arrays;
- Application of neural networks in MIMO antenna systems.

Works that validate the proposed methods at the experimental level will be especially welcome.

Dr. Marcin Kolakowski

Dr. Paolo Tripicchio

Dr. Ljubomir Jovanov

Guest Editors

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica,
Politecnico di Milano, Piazza L.
da Vinci 32, 20133 Milano, Italy

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
