Prof. Dr. Francisco Jesús Fernández Morales

Institute of Chemical and Environmental Technologies (ITQUIMA), Department of Chemical Engineering, University Castilla-La Mancha, 13071 Ciudad Real, Spain

Prof. Dr. Jose Luis García-Morales

Department of Environmental Technologies, Faculty of Sea and Environmental Sciences, University of Cádiz, 11510 Puerto Real, Spain

Message from the Guest Editors

Dear Colleagues,

This Special Issue, "Waste Recycling Materials and Technologies: Latest Advances and Prospects", is dedicated to exploring the latest developments in material recycling and associated technologies. It covers a broad spectrum of topics, including innovations in waste processing, the conversion of waste into useful resources, and strategies for environmental sustainability. This collection contributes to the field with research articles, comprehensive reviews, and case studies that highlight best practices and technological advances. This publication is an essential platform for academics, engineers, and industry professionals interested in the most advanced and promising solutions for waste management and circular economy. It also provides insights into future challenges and opportunities in the field of recycling and material reuse.

Deadline for manuscript submissions:

20 February 2025

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica,
Politecnico di Milano, Piazza L.
da Vinci 32, 20133 Milano, Italy

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
