Deadline for manuscript
submissions:

31 December 2024

Message from the Guest Editors

Dear Colleagues,

With the rapid development of China's agriculture in recent years, Chinese researchers have made significant progress in the agricultural science and technology development fields. We would like to invite authors to submit original research articles or review articles on the latest research advances in the field of agricultural science and technology, including, but not limited to, the following topics:

Applied agricultural sciences: crop production; crop protection; food sciences and food technology; irrigation; agricultural statistics; and bioinformatics.

Applied agricultural technology: farm structure; farm power and machinery; irrigation and drainage; engineering of land and water resources; aquaculture and fisheries; renewable energy; agro-industrial engineering; horticultural and greenhouse engineering; pre- and post-harvest engineering; the environment; and agricultural information technology, etc.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo

Dipartimento di Fisica,
Politecnico di Milano, Piazza L.
da Vinci 32, 20133 Milano, Italy

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Multidisciplinary*) / CiteScore - Q1 (General Engineering)
