Message from the Guest Editor

Dear Colleagues,
Oral and maxillofacial implants represent one of the most important fields of surgery, and are a fundamental aspect of oral and maxillofacial surgery. With this Special Issue I propose to focus on several topics related to the field: surgical complications, treatment of maxillary atrophy and oncological patients. I encourage you to share with the readers the state of the art in oral surgery.

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
