Message from the Guest Editors

The Special Issue "Virtual Model for Autonomous Driving System" allows authors to publish open access papers on autonomous driving virtual systems and algorithms, including virtual environments, routes, infrastructure, and traffic models, simulation methodology and scenarios for connected vehicles, and collaborative driving integrated into intelligent transportation systems.

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Multidisciplinary*) / CiteScore - Q1 (*General Engineering*)
