

New Challenges of Offshore Wind

Guest Editors:

Dr. Elsa Henriques

Dr. Brian F. Snyder

Dr. Luis Reis

Dr. Mário Alberto Vieira

Deadline for manuscript
submissions:

closed (30 November 2021)

Message from the Guest Editors

Dear Colleagues,

Offshore wind technologies have gained strong notoriety in the past decade, as they have been shown to operate reliably and with capacity factors that surpass those registered on onshore farms. However, offshore wind still faces many challenges, which are usually related with the elevated costs of these technologies.

The Guest Editors invite researchers to submit research related but not limited to the following topics (including review papers):

- Offshore wind cost reduction drivers;
- Technoeconomic studies of offshore wind implementation;
- Decisions on life extension and repowering;
- Structural evaluation of new concepts for offshore wind;
- Structural validation of offshore wind structures and moorings;
- Development of hybrid systems (p.e. offshore wind + hydrogen);
- Reliability and maintenance procedures of offshore wind;
- Environmental impacts of offshore wind farms.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica,
Politecnico di Milano, Piazza L.
da Vinci 32, 20133 Milano, Italy

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
