

## Trustworthy Artificial Intelligence (AI) and Robotics

Guest Editors:

**Prof. Dr. Ayşegül Uçar**

**Dr. Sergiu Dan Stan**

**Prof. Dr. Bogdan Mocan**

**Dr. Milan Banić**

**Prof. Dr. Milos Manic**

Deadline for manuscript  
submissions:  
**closed (30 April 2024)**

### Message from the Guest Editors

Dear Colleagues,

The special section on Trustworthy AI and Robotics is dedicated to exploring the cutting-edge advancements and challenges in the field of artificial intelligence and robotics. Both theoretical and experimental studies are welcome, as well as comprehensive reviews and survey articles.

### Topics of interest for this Special Issue include but are not limited to:

- Explainable AI.
- Ethical considerations in AI.
- Safety and security in AI and robotics.
- Human–robot interaction.
- Robotics in industry and society.
- AI and robotics in healthcare.
- AI and robotics in transportation.
- AI and robotics in the economy.
- AI and robotics in education and training.
- AI and robotics governance.

## Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
