

Nano- and Biomagnetism

Guest Editor:

Dr. Costica Caizer

Department of Physics, Faculty of
Physics, West University of
Timisoara, 300223 Timisoara,
Romania

Deadline for manuscript
submissions:

closed (30 October 2021)

Message from the Guest Editor

Nanomagnetism and bionanomagnetism are fascinating domains at the nano level, through the special magnetic and biomagnetic aspects obtained compared to the bulk material, resulting mainly from the small size (1-100 nm) of physical nanostructures and bionanostructures.

We are seeking research on the magnetism of magnetic nanostructures/nanomaterials and bio-nanostructures/nanomaterials. This Special Issue aims to make known the newest state-of-the-art results recently obtained in the fields of nanomagnetism and bionanomagnetism, and advanced applications in nano- and bionanotechnology.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica,
Politecnico di Milano, Piazza L.
da Vinci 32, 20133 Milano, Italy

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
