submissions:

closed (31 January 2022)

Message from the Guest Editors

Dear Colleagues,

The Special Issue “New Trends in Biosciences II” invites worldwide investigators as well as clinicians who are confident in applied biosciences research to submit their most interesting overviews, reviews, and original articles that may provide novel insights regarding multidisciplinary research in the field of biomedicine and biological engineering applications.

Potential topics include but are not limited to translational research, bioengineering types, clinical engineering, system modeling, biosignal processing, stem cells, bioscaffolds, biomedical devices, clinical biochemistry and molecular biology, microbiota and clinical microbiology, bioinformatics, biotechnology, biomechanics, computational mechanobiology, and the role of oral health and disease in contributing to general health and systemic conditions. The main focus is on novel developments and applications in biomedical relevant themes.

Dr. Andrea Ballini
Prof. Dr. Dario Di Stasio
Prof. Dr. Antonio Boccaccio
Dr. Maria Contaldo

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Multidisciplinary*) / CiteScore - Q1 (*General Engineering*)
