Message from the Guest Editors

Dear Colleagues,

This Special Issue on “Efficient and Innovative Goods Transportation and Logistics” to be published in *Applied Sciences* aims to bring together recent theoretical, applied or methodological advances concerning operational management in sustainable transportation and the logistics industry, no matter whether pertaining to hardware, software or related innovative approaches. We encourage researchers in related fields with deep interest in making the transportation industry more sustainable and green to contribute their work, welcoming both research and review papers.

Prof. Dr. Xu Guan

Politecnico di Milano, Piazza L.
da Vinci 32, 20133 Milano, Italy

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
