

Advanced Optoelectronic Detection Technologies and Systems

Guest Editors:

Prof. Dr. Pingjuan Niu

Prof. Dr. Delin Zhang

Dr. Xiuyan Li

Dr. Jia Shi

Dr. Hang Li

Deadline for manuscript
submissions:

31 October 2024

Message from the Guest Editors

Dear Colleagues,

It is our pleasure to announce a new Special Issue of *Applied Sciences* devoted to advanced optoelectronic detection technologies and systems. It will cover both the theoretical and experimental advances of materials, devices, algorithms, and systems in optoelectronic detection technology. Particularly welcome will be works focused on semiconductor, spintronic, magnetic, and terahertz devices, and their applications in sensors and detections. Taking into account that a validation of a supposition is usually realized via a cross-check, the use of combined approaches are also welcomed.

This Special Issue also collects the selected papers from Symposium on Semiconductor Light Source System 2023 organized by the China Electrotechnical Society.

Prof. Dr. Pingjuan Niu

Prof. Dr. Delin Zhang

Dr. Xiuyan Li

Dr. Jia Shi

Dr. Hang Li

da Vinci 32, 20133 Milano, Italy

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
