Troy, NY, USA

Deadline for manuscript
submissions:

closed (15 April 2022)

Message from the Guest Editors

Dear Colleagues,

This Special Issue is devoted to topological carbon materials, including new topological carbon materials, topological phases, topological properties, and related applications. Studies on topological materials made of other light elements are also welcome. Particularly welcome are works on experiments, such as synthesizing new carbon materials, finding or verifying novel topological phenomena in carbon materials. Other than carbon, carbon compounds with topological characteristics are also welcome topics in this Special Issue.

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
