Technology, Central China  
Normal University, Wuhan, China

Deadline for manuscript  
submissions:

**10 April 2025**

### Message from the Guest Editor

Dear Colleagues,

With the advancement and enhancement of technology, astronomy has entered an unprecedented era of development. From traditional optical observations to multi-wavelength observations, like radio, X-ray, and gamma-ray, and from star cataloging to astrophysical analysis and cosmological research, today's Astronomy and Astrophysics research has brought immense surprises and significantly contributed to our understanding of nature.

In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- Radio astronomy;
- High-energy astronomy;
- Galactic astronomy;
- Stellar astronomy;
- Optical astronomy;
- Numerical simulations in astronomy;
- Astrophysics;
- Cosmology;
- Planetary science.

an Open Access Journal by MDPI

## Editor-in-Chief

**Prof. Dr. Giulio Nicola Cerullo**  
Dipartimento di Fisica,  
Politecnico di Milano, Piazza L.  
da Vinci 32, 20133 Milano, Italy

## Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
