Message from the Guest Editors

Dear Colleagues,

Wood is a popular renewable resource that is widely used in many innovative solutions in various industries. This Special Issue will be dedicated to effective and innovative wood and composite materials testing methods, and functional and protective wood finishing.

This Special Issue will publish high-quality, original research papers, in the overlapping fields of:

- Wood physics and mechanics;
- Wood construction;
- Wood protection and modification, durability;
- Wood engineering;
- Surface quality;
- Engineered wood products and composites;
- Wood structure and properties;
- Mechanical wood processing;
- Wood-based materials.

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
