Deadline for manuscript  
submissions:

**closed (20 August 2022)**

### Message from the Guest Editor

Dear Colleagues,

The growth of global energy demand for energy is gradually increasing. However, due to the global warming and greenhouse gas emission effect, the need of a climate change mitigation is mandatory and urgent targeted actions are required now more than ever before to recover from the impact caused by the COVID-19 crisis on the sustainability.

The Special Issue "Contributions of Women in Renewable Energy" aims to illustrate the impact of women in the field of energy and specifically in the field of renewable energy, its supply conversion, storage, and rational energy consumption. The objective is to provide insight into the various possibilities to produce sustainable energy, the theoretical and practical solutions for thermal energy, photovoltaic solar energy, wind energy, biomass, hydropower and more. The issue covers studies, analysis and review on the recent solutions for renewable energy sources, storage, the design of the specified energy systems and the transition to decentralized grid, along with their deployment impact on the climate change. We welcome fundamental and applied studies about renewable energy.

Politecnico di Milano, Piazza L.  
da Vinci 32, 20133 Milano, Italy

## Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
