### Message from the Guest Editor

Dear Colleagues,

We are inviting you to a Special Issue called “Application of Natural Product with Anti-inflammatory Potential”.

Natural products are a resource with endless possibilities.

Among the many possibilities of natural products, pharmacological action should be noted.

Moreover, the efficacy of natural products for their anti-inflammatory activity is an area you must explore.

Through this Special Issue, I hope that you will engage in research on anti-inflammatory activity in various natural products and various research fields.

We are ready to humbly accept your field of study.

We hope that many researchers will share their advanced research results through this Special Issue.

## Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
