Message from the Guest Editors

Dear Colleagues,

The development of bioencapsulation technologies is a critical issue in numerous fields, including the agri-food sector and energetic industries up to medicine, in which the design of medical devices and the advent of tissue engineering and of new therapeutic approaches poses urgent questions about the biointerface.

This Special Issue of the journal *Applied Sciences*, “Advanced Applications of Bioencapsulation Technologies”, aims to cover recent advances in the encapsulation of biological compounds or entities for applications in medicine and biology.

Keywords:

- Bioencapsulation
- Biocoatings
- Polymers
- Tissue engineering
- Biomaterials
- Drug delivery
- Cell-based therapy
- Biosensors

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica,
Politecnico di Milano, Piazza L.
da Vinci 32, 20133 Milano, Italy

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
