closed (20 March 2023)

Message from the Guest Editors

Dear Colleagues,

Recently, the development of 3D printing, VR, AR, and AI, which are in the spotlight as future technologies, is receiving a lot of interest in the medical field, and medical technologies that combine them are being used in various fields. New computer technologies will revolutionize research, diagnosis, treatment, and education in dentistry. The development of computer technology can provide us with new advances in oral and maxillofacial surgery.

This Special Issue focuses on all the recent computer technology that can enhance research, diagnosis, treatment, and education in dentistry. For this purpose, we invite you to submit original research articles, clinical articles, and reviews to any of the topics mentioned above.

Prof. Dr. SeongYong Moon
Prof. Dr. Yong-Dae Kwon

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.
Journal Rank: JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
