

Advanced Optimization Methods for the Design of Electromagnetic Devices

Guest Editors:

Dr. Gang Lei

Prof. Dr. Jianguo Zhu

Dr. Shuangxia Niu

Prof. Dr. Xiaodong Sun

Prof. Dr. Weinong Fu

Prof. Dr. Shuhong Wang

Deadline for manuscript
submissions:

closed (31 December 2020)

Message from the Guest Editors

This Special Issue aims to present a collection of scientific manuscripts covering the theoretical and practical aspects associated with optimization methods for electromagnetic devices and systems. The state-of-the-art and any emerging developments in this field are welcome. Topics may include, but are not limited to, the following:

- Improved/advanced intelligent optimization algorithms
- Surrogate models and design of experiment techniques
- Multi-objective optimization methods
- Multi-level optimization methods
- Multidisciplinary optimization methods
- Reliability-based optimization methods
- Robust optimization methods
- Parallel computing and optimization
- Optimization methods based on cloud computing technologies
- AI-based optimization methods for electromagnetic devices and systems

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica,
Politecnico di Milano, Piazza L.
da Vinci 32, 20133 Milano, Italy

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
