Human Empowerment through Mixed Reality

Guest Editors:

Dr. Mariolino De Cecco

Department of Industrial Engineering, MIRO Lab, University of Trento, via Sommarive 9, 38123 Trento, Italy

Dr. Alessandro Luchetti

MIRO (Measurement, Instrumentation and Robotics) laboratory, Department of Industrial Engineering (DII), University of Trento, 38123 Trento, Italy

Deadline for manuscript submissions:

closed (20 October 2022)

Message from the Guest Editors

MR is a fertile research field in several applications ranging from applications of Industry 4.0 such as smart manufacturing, collaborative robotics, location-based support for mobile devices, and assistance for industrial maintenance (e.g., inspection, diagnostics, and simulation), to rehabilitation and clinics, training, and teaching.

This Special Issue encourages the contribution of original papers in MR, especially focusing on the empowerment of human agents in the abovementioned fields.

- Augmented human
- Mixed reality in Industry 4.0
- Mixed reality in education
- Mixed reality for training and support
- Mixed reality in rehabilitation and clinics

NOTE:

About the journal: Applied Sciences (ISSN 2076-3417; IF: 2.474) is fully open access IF 2.474. Manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.9 days after submission; acceptance to publication is then undertaken in 3.6 days (median values in 2020).

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica,
Politecnico di Milano, Piazza L.
da Vinci 32, 20133 Milano, Italy

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
