Deadline for manuscript  
submissions:

**closed (20 January 2022)**

### Message from the Guest Editors

Dear Colleagues,

In this Special Issue, we are focusing on nanoparticles that can be used to identify, diagnose, and track diseases. Moreover, we are interested in nano-based carriers that can be used as targeted therapeutics which allow for precise treatments without side-effects.

Topics of interest for publication in this Special Issue include but are not limited to the following:

- Nanoparticles for targeting/diagnosis/imaging
- Theranostics
- Drug delivery
- Biomaterials in nanodevices
- Cancer nanotherapy
- Nanomedicine
- Targeted therapy

Prof. Dr. Nasim Nosoudi

Prof. Dr. Jaime E Ramirez-Vick

## Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
