Message from the Guest Editor

Pharmacology plays an important role in dentistry. Indeed, nowadays it is already a challenge to understand the specific aspects of how drugs influence or are correlated with body systems. It is evident the necessary to better understand the pharmacological management of patients undergone to dental practises, hence this Special Issue welcomes manuscripts that can contribute the knowledge necessary to effectively clarify the administration of drugs in dental field.

A large number of different classes of drugs are used in dentistry, depending on the requirements. Therefore a more awareness and knowledge should be increase amongst clinicians toward pharmacological therapy both in adults and children or special needs ones.

1. Pharmacological prevention and management in dental practises
2. Experimental pharmacological protocols
3. Pharmacological therapy in patients at risk
4. Sustainability of innovative and alternative medicaments

All original articles, case reports, and review articles will be welcome.

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
