Message from the Guest Editors

This Special Issue invites researchers to submit their work and advances that help build a more sustainable and user-friendly digital ecosystem. We welcome submissions that apply technology, computational approaches, or artificial intelligence in applications across the wide range of contexts within the Web, such as e-commerce, online advertising, social networks, entertainment or e-learning, amongst many others. The topics of interest include but are not limited to:

- Literature reviews or surveys on the current trends and challenges of the Web ecosystem.
- New technological developments that can represent an advance in the Web ecosystem.
- Empirical research and case studies with detailed analyses that introduce innovation into the Web ecosystem.
- Critical views or positioning papers on the privacy, security and ethics of the Web ecosystem.

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
