

Special Issue

Technology for Beverage Production: Enhancing Processes and Improving Product Quality

Message from the Guest Editors

In this Special Issue, we seek contributions that investigate the impact of processing innovations and monitoring approaches on the final quality of beverages in terms of sensory profile, safety, convenience, waste reduction, increased sustainability, and decreased reliance on synthetic additives. Topics also include the testing of technological additives for enhanced sensory and nutritional qualities and strategies to improve overall product quality while addressing consumer preferences. Researchers and industry professionals are invited to share their findings, contributing to a comprehensive understanding of how advancements in beverage processing shape the sensory, technological, environmental, and economic aspects of final products. We look forward to receiving your contributions to this dynamic and multidimensional exploration of technology for beverage production that seeks to enhance processes and improve product quality.

Guest Editors

Dr. Alberto De Iseppi

Dr. Lorenzo Guerrini

Dr. Alessandro Zanchin

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
