Laparoscopic Surgery: Current Status, Challenges, and Novel Advances

Message from the Guest Editor

Laparoscopic surgery has revolutionized medicine with minimally invasive procedures, offering many benefits. Surgeons can now operate on internal organs with precision and efficiency through small incisions and specialized instruments. Patients experience reduced pain, shorter hospital stays, and faster recovery times compared to traditional open surgery. Laparoscopic surgery's roots date back over a century, with pioneers such as Kelling and Jacobaeus paving the way for modern techniques. In Italy, the tireless dedication of prominent surgeons such as Professors Morino, Rendano, Novellino, and Corcione has led to the rapid expansion of laparoscopic surgery in Naples and beyond [1]. Ongoing research focuses on improving outcomes, reducing complications, and expanding the range of indications for laparoscopic surgery [1]. Advancements in technology and skilled surgeons ensure the bright future of laparoscopic surgery [1].

- Morino, M., Pellegrino, L., Castagna, E., Farinella, E., & Mao, P. Laparoscopic surgery in Italy: reflections after 20 years. *Surgical Endoscopy*, 24(3), 487-492.

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
