

## Special Issue

# Advances in Orofacial Dysfunctions and Pain

### Message from the Guest Editors

The concept of orofacial dysfunctions and pain encompasses a wide spectrum of conditions that affect the mouth, jaw, and face. These disorders can have a significant impact on an individual's quality of life, often presenting multifaceted challenges in terms of diagnosis and management. This Special Issue on "Advances in Orofacial Dysfunctions and Pain" aims to bring together the latest research, innovations, and insights in this field, shedding light on emerging diagnostic tools, novel interdisciplinary treatment modalities, and a bringing about a deeper understanding of the underlying mechanisms. We invite investigators, scholars, and practitioners to submit their original research, systematic reviews, and meta-analyses for consideration. **keywords:**

## About the Journal

### Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.
