Message from the Guest Editors

Dear Colleagues,

This Special Issue aims to address several topics associated with the concept of sustainability and thermal efficiency in buildings, by exploring different aspects concerning building materials, construction technologies, production chains, process control, hygrothermal and energy performance, and indoor thermal comfort of the built environment. Topics of interest for publication include, but are not limited to:

- Innovative and emerging bio-based, recycled, and waste-based building materials;
- Development of innovative instruments to assess the physical properties of bio-based materials;
- LCA and LCC of sustainable building materials and technologies;
- Innovative technologies for low-energy buildings;
- Eco-designs and bioclimatic approaches for buildings;
- Sustainability and process control.

Dr. Giada Giuffrida

Dr. Hamza Allam

Dr. Rosa Giuseppina Caponetto

Dr. Francesco Nocera

Message from the Editor-in-Chief

The journal Architecture is an outstanding platform for new ideas and for reporting the outcomes of your research. The subjects sought are wide ranging and include design strategies, form, and technology. The need to be innovative in a rapidly changing profession and building environment make this journal the ideal place to publish. We are open to creativity and out-of-the-box thinking.

Author Benefits

Open Access: free for readers, with **article processing charges (APC)** paid by authors or their institutions.

High Visibility: indexed within **ESCI (Web of Science)**, **Scopus**, and **other databases**.

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 33.6 days after submission; acceptance to publication is undertaken in 5.4 days (median values for papers published in this journal in the first half of 2024).
