Deadline for manuscript
submissions:

closed (31 October 2022)

Message from the Guest Editor

In this Special Issue, we invite researchers to submit various aspects of air quality in rural areas, including, but not limited to, the characteristics, sources, influencing factors, chemical or biological compositions, outcomes, transport, sampling designs, health effects, and risk assessment. Moreover, outdoor air is an important influence on indoor air quality, we also accept the investigation of influence of outdoor air to indoor air quality in rural areas, such as residences, schools, daycare centers, or offices. We welcome researchers to contribute original articles or review papers for peer-review or possible publication.

Message from the Editor-in-Chief

Continued developments in instrumentation and modeling have driven atmospheric science to become increasingly more complex with a deeper understanding of concepts, mechanisms, and interactions. This is the field that innovation built and it has led to a better appreciation for the complexity with atmosphere. Human life is intertwined in this complexity as we strive to better understand our atmosphere. Climate change is constantly stretching the limits of our thinking and forcing new ideas and concepts to be played out. Welcome to the Anthropocene!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, GeoRef, Inspec, CAPlus / SciFinder, Astrophysics Data System, and other databases.

Journal Rank: CiteScore - Q2 (Environmental Science (miscellaneous))
