Message from the Guest Editors

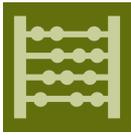

Dear Colleagues,

The integral has served as a versatile tool in a wide range of mathematical fields, from integral transforms and integral equations to the task of defining linear functionals and norms on function spaces. This Special Issue aims to be a general collection of new and novel results that utilize integration techniques in some capacity.

We look forward to your contributions to this Special Issue.

Dr. Samuel A. Hokamp
Prof. Dr. Hans J. Haubold

Message from the Editor-in-Chief

Axioms is dedicated to the foundations (structure and axiomatic basis, in particular) of mathematical theories, not only from a crisp or strictly classical sense, but also from a fuzzy and generalized sense. This includes the more innovative current scientific trends, devoted to discover and solve new challenging problems. The prime goal of *Axioms* is to publish first-class, original research articles under an open access policy with minimal fees for the authors. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High visibility: indexed within [SCIE \(Web of Science\)](#), [dblp](#), and [other databases](#).

Journal Rank: JCR - Q1 (Mathematics, Applied)

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 3.4 days (median values for papers published in this journal in the first half of 2024).
