Rajasthan State, India

Deadline for manuscript
submissions:

20 December 2024

Message from the Guest Editors

Dear Colleagues,

The aim of this Special Issue is to showcase a compilation of both original research articles and review articles that cover any aspect of Generalised Hypergeometric Functions, Integral Transforms and Number Theory and related study areas with a wide range of applications (in particular, applications in Ramanujan's work).

In order to encourage the ongoing efforts to produce effective transformations and applications related to the analysis of transformation, we invite mathematicians, researchers, and investigators to submit original research articles as well as review articles.

We look forward to receiving your contributions.

Dr. Dongkyu Lim

Prof. Dr. Adem Kilicman

Prof. Dr. Arjun Kumar Rathie

Navarra, 31006 Pamplona, Spain

Message from the Editor-in-Chief

Axioms is dedicated to the foundations (structure and axiomatic basis, in particular) of mathematical theories, not only from a crisp or strictly classical sense, but also from a fuzzy and generalized sense. This includes the more innovative current scientific trends, devoted to discover and solve new challenging problems. The prime goal of *Axioms* is to publish first-class, original research articles under an open access policy with minimal fees for the authors. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with **article processing charges (APC)** paid by authors or their institutions.

High visibility: indexed within **SCIE (Web of Science)**, **dblp**, and **other databases**.

Journal Rank: JCR - Q1 (Mathematics, Applied)

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 3.4 days (median values for papers published in this journal in the first half of 2024).
