Mathematical Analysis Is the Theoretical Basis of a Number of Mathematical Disciplines

Guest Editors:

Dr. Victor Orlov

Department of Higher
Mathematics, Institute of Digital
Technologies and Mathematical
Modeling in Construction
(ICTMS), National Research
Moscow State University (NRU
MGSU), 129337 Moscow, Russia

Prof. Dr. Michal Fečkan

Department of Mathematical
Analysis and Numerical
Mathematics, Comenius
University in Bratislava,
Bratislava, Slovakia

Message from the Guest Editors

This issue is devoted to sections of mathematical disciplines that apply the basics of mathematical analysis to prove results in such areas as differential equations and optimal control, mathematical physics, mathematical problems of artificial intelligence, and interdisciplinary applications of mathematical theory.

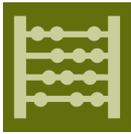

We hope that this initiative will be attractive to experts in the field of the theory of differential equations with both ordinary and fractional derivatives, as well as their theoretical and practical applications. We recommend that you submit your current research for inclusion in a Special Issue.

Deadline for manuscript
submissions:

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Humberto Bustince

Department of Statistics,
Computer Science and
Mathematics, Public University of
Navarra, 31006 Pamplona, Spain

Message from the Editor-in-Chief

Axioms is dedicated to the foundations (structure and axiomatic basis, in particular) of mathematical theories, not only from a crisp or strictly classical sense, but also from a fuzzy and generalized sense. This includes the more innovative current scientific trends, devoted to discover and solve new challenging problems. The prime goal of *Axioms* is to publish first-class, original research articles under an open access policy with minimal fees for the authors. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility: indexed within SCIE (Web of Science), dblp, and other databases.

Journal Rank: JCR - Q2 (Mathematics, Applied)
