Deadline for manuscript
submissions:

closed (10 June 2023)

Message from the Guest Editor

Dear colleagues,

The study of time series is dealt with a wide variety of subjects, including statistics, mathematics, physics, and econometrics; both from a theoretical and an applied viewpoint. The domains of application of time series analysis are a large number as well, spanning from social sciences, economics, finance to medicine, biology, climate, information science.

This Special Issue aims to bring together contributions concerning time series analyses from a wide variety of study fields and applicative domains. This Special Issue seeks studies on novel methodologies or applications in both univariate and multivariate time series and stochastic processes. In particular, the Special Issue welcomes submissions concerning time series from the following areas, or in between the areas of:

Economics

Finance

Social Sciences

Meteorology and Climate Science

Biology

Engineering

Navarra, 31006 Pamplona, Spain

Message from the Editor-in-Chief

Axioms is dedicated to the foundations (structure and axiomatic basis, in particular) of mathematical theories, not only from a crisp or strictly classical sense, but also from a fuzzy and generalized sense. This includes the more innovative current scientific trends, devoted to discover and solve new challenging problems. The prime goal of *Axioms* is to publish first-class, original research articles under an open access policy with minimal fees for the authors. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with **article processing charges (APC)** paid by authors or their institutions.

High visibility: indexed within **SCIE (Web of Science)**, **dblp**, and **other databases**.

Journal Rank: JCR - Q1 (Mathematics, Applied)

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 3.4 days (median values for papers published in this journal in the first half of 2024).
