Advances in Algebraic Geometry

Guest Editors:

Prof. Dr. Elena Guardo
Department of Mathematics and
Computer Science, University of
Catania, Viale A. Doria, 6, 95100
Catania, Italy

Prof. Dr. Luca Chiantini
Department of Mathematical and
Computer Sciences, University of
Siena, Pian dei Mantellini, 44,
53100 Siena, Italy

Prof. Dr. Edoardo Ballico
Department of Mathematics,
University of Trento, Via
Sommarive 14, 38123 Trento,
Italy

Message from the Guest Editors

The aim of this Special Issue, which is devoted mainly to algebraic geometry, is to collect recent noteworthy results and original research focusing on the latest progress and developments in this research area and its applications. We hope that this Special Issue will provide a good platform for researchers in different areas of algebraic geometry to come together and exchange ideas on how we can further develop and apply algebraic geometry. Keywords include but are not limited to:

- Algebraic Varieties;
- Vector Bundles Over Projective Varieties;
- Symbolic Computation;
- Geometric Computation;
- Vectors; Matrix;
- Tensor Analysis;
- Combinatorial Algebraic Geometry.

Special Issue

Editor-in-Chief

Prof. Dr. Humberto Bustince
Department of Statistics,
Computer Science and
Mathematics, Public University of
Navarra, 31006 Pamplona, Spain

Message from the Editor-in-Chief

Axioms is dedicated to the foundations (structure and axiomatic basis, in particular) of mathematical theories, not only from a crisp or strictly classical sense, but also from a fuzzy and generalized sense. This includes the more innovative current scientific trends, devoted to discover and solve new challenging problems. The prime goal of *Axioms* is to publish first-class, original research articles under an open access policy with minimal fees for the authors. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High visibility: indexed within SCIE (Web of Science), dblp, and other databases.
Journal Rank: JCR - Q1 (Mathematics, Applied)
Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 3.4 days (median values for papers published in this journal in the first half of 2024).
