Fractional Calculus, Wavelets and Fractals II

Guest Editor:

Prof. Dr. Carlo Cattani

Engineering School (DEIM), University of Tuscia, Largo dell'Università, 01100 Viterbo, Italy

Deadline for manuscript submissions:
closed (10 December 2022)

Message from the Guest Editor

This Special Issue is focused on the most recent advances in axiomatic models for theoretical and applied sciences arising in all fields of science, engineering applications and other applied fields that are based on fractional calculus, fractals, wavelets, nonlinear equations and methods, nonlinear dynamical systems, linear and nonlinear fractional ordinary and partial differential equations, integral fractional differential equations and stochastic integrals.

Special Issue

Editor-in-Chief

Prof. Dr. Humberto Bustince
Department of Statistics,
Computer Science and
Mathematics, Public University of
Navarra, 31006 Pamplona, Spain

Message from the Editor-in-Chief

Axioms is dedicated to the foundations (structure and axiomatic basis, in particular) of mathematical theories, not only from a crisp or strictly classical sense, but also from a fuzzy and generalized sense. This includes the more innovative current scientific trends, devoted to discover and solve new challenging problems. The prime goal of *Axioms* is to publish first-class, original research articles under an open access policy with minimal fees for the authors. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High visibility: indexed within SCIE (Web of Science), dblp, and other databases.
Journal Rank: JCR - Q1 (Mathematics, Applied)
