Angamos 601, Antofagasta, Chile

Deadline for manuscript
submissions:

closed (30 June 2022)

Message from the Guest Editor

Dear Colleagues,

We intend to launch a Special Issue of *Axioms*. The central topic of this Special Issue will be “Linear Algebra: Matrix Theory, Graph Theory and Applications”. We would like to provide an opportunity to showcase recent developments in both the Matrix Theory and Graph Theory, as well as their applications in different scientific or technological disciplines. In the Keywords section, you will find a list of possible topics, but this list is not exclusive.

We hope to provide a platform to bring together experts, as well as young researchers, in the field to publish original research article.

Prof. Dr. Luis Medina

Computer Science and
Mathematics, Public University of
Navarra, 31006 Pamplona, Spain

Message from the Editor-in-Chief

Axioms is dedicated to the foundations (structure and axiomatic basis, in particular) of mathematical theories, not only from a crisp or strictly classical sense, but also from a fuzzy and generalized sense. This includes the more innovative current scientific trends, devoted to discover and solve new challenging problems. The prime goal of *Axioms* is to publish first-class, original research articles under an open access policy with minimal fees for the authors. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with **article processing charges (APC)** paid by authors or their institutions.

High visibility: indexed within **SCIE (Web of Science)**, **dblp**, and **other databases**.

Journal Rank: JCR - Q2 (Mathematics, Applied)

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.6 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2025).
