

## Mathematical Modeling with Differential Equations

Guest Editor:

**Dr. Ioannis Dassios**

School of Electrical and  
Electronic Engineering, University  
College Dublin, D04 V1W8 Dublin,  
Ireland

Deadline for manuscript  
submissions:

**closed (31 March 2023)**

### Message from the Guest Editor

This Special Issue aims to collect the latest results on differential/difference equations that can bring new insights in the mathematical modeling of several real-world applications including electrical power systems, materials, energy, macroeconomics, etc. In addition, articles that propose and construct new mathematical models by using differential equations are also very welcome.

This Special Issue will accept high-quality papers with original research results. Its purpose is to bring together mathematicians with physicists, engineers, as well as other scientists.

Topics covered include, but are not limited to:

- Differential/difference equations
- Partial differential equations
- Dynamical systems
- Control Systems
- Mathematical modeling
- Computational modeling and simulation
- Fractional calculus

an Open Access Journal by MDPI

## Editor-in-Chief

### **Prof. Dr. Humberto Bustince**

Department of Statistics,  
Computer Science and  
Mathematics, Public University of  
Navarra, 31006 Pamplona, Spain

## Message from the Editor-in-Chief

*Axioms* is dedicated to the foundations (structure and axiomatic basis, in particular) of mathematical theories, not only from a crisp or strictly classical sense, but also from a fuzzy and generalized sense. This includes the more innovative current scientific trends, devoted to discover and solve new challenging problems. The prime goal of *Axioms* is to publish first-class, original research articles under an open access policy with minimal fees for the authors. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with **article processing charges (APC)** paid by authors or their institutions.

**High visibility:** indexed within **SCIE (Web of Science)**, **dblp**, and **other databases**.

**Journal Rank:** JCR - Q1 (Mathematics, Applied)

**Rapid Publication:** manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 3.4 days (median values for papers published in this journal in the first half of 2024).
