Mathematics of the COVID-19

Guest Editors:

Prof. Dr. Delfim F. M. Torres

Center for Research and Development in Mathematics and Applications (CIDMA), Department of Mathematics, University of Aveiro, 3810-193 Aveiro, Portugal

Dr. Cristiana João Soares da Silva

 Department of Mathematics, ISTA, Iscte-Instituto Universitário de Lisboa, Av. das Forças Armadas, 1649-026 Lisboa, Portugal
Center for Research and Development in Mathematics and Applications (CIDMA), Department of Mathematics, University of Aveiro, 3810-193 Aveiro, Portugal

Deadline for manuscript submissions: closed (10 December 2022)

Message from the Guest Editors

COVID-19 remains a worldwide major concern and, since the beginning of this pandemic, mathematics has had an important role in its analysis and control. A wide range of mathematical tools can be used in order to understand, predict, and minimize the transmission dynamics of SARS-CoV-2.

This Special Issue will include high-quality articles containing original research results and survey articles, including prospective discussion focusing on, but not limited to, mathematical models for COVID-19, optimization methods for COVID-19 mitigation and control, and application of mathematical tools on COVID-19, inspired by different areas of mathematics.

Editor-in-Chief

Prof. Dr. Humberto Bustince

Department of Statistics, Computer Science and Mathematics, Public University of Navarra, 31006 Pamplona, Spain

Message from the Editor-in-Chief

Axioms is dedicated to the foundations (structure and axiomatic basis, in particular) of mathematical theories, not only from a crisp or strictly classical sense, but also from a fuzzy and generalized sense. This includes the more innovative current scientific trends, devoted to discover and solve new challenging problems. The prime goal of *Axioms* is to publish first-class, original research articles under an open access policy with minimal fees for the authors. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility: indexed within SCIE (Web of Science), dblp, and other databases. **Journal Rank:** JCR - Q2 (Mathematics, Applied)

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.6 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2025).
