Industry Systems, University of
South-Eastern Norway, 3603
Kongsberg, Norway

Deadline for manuscript
submissions:
closed (28 February 2021)

Message from the Guest Editors

Dear Colleagues,

Recent years have witnessed mutually beneficial interactions between theoretical ideas arising from quantum information science and developments in the foundations of quantum theory. In this Special Issue, we invite both original and review articles related to mathematical and theoretical aspects of quantum information and foundations, with particular emphasis on their intersection or on quantum measurement. However, we will also be pleased to receive high-quality papers on related topics.

Prof. Dr. Takayuki Miyadera

Prof. Dr. Leon Loveridge

Message from the Editor-in-Chief

Axioms is dedicated to the foundations (structure and axiomatic basis, in particular) of mathematical theories, not only from a crisp or strictly classical sense, but also from a fuzzy and generalized sense. This includes the more innovative current scientific trends, devoted to discover and solve new challenging problems. The prime goal of *Axioms* is to publish first-class, original research articles under an open access policy with minimal fees for the authors. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High visibility: indexed within [SCIE \(Web of Science\)](#), [dblp](#), and [other databases](#).

Journal Rank: JCR - Q1 (Mathematics, Applied)

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 3.4 days (median values for papers published in this journal in the first half of 2024).
