Education and Research (IISER)
Berhampur, Odisha, India

Dr. Narsimulu Daulatabad

Institute for Wearable
Convergence Electronics.
Department of Electronic
Engineering, Kyung Hee
University, 26 Kyungheedaero,
Dongdaemun-gu, Seoul, Korea

Deadline for manuscript
submissions:

closed (10 May 2023)

Message from the Guest Editors

The global community will soon be witnessing a significant scarcity of energy as conventional energy resources are being depleted day by day. Therefore, alternative renewable energy resources such as solar energy, wind energy, ocean energy, etc. are attracting an enormous amount of attention. Unfortunately, almost all renewable energy resources are intermittent in nature, and it is difficult to generate energy continuously. As such, there is a need to store the energy that is produced during the presence of energy sources and utilize it in the absence of energy sources. Supercapacitors are emerging as prominent energy storage devices owing to their unique properties, such as sharp charge/discharge rates and longer lifetimes. However, for commercial usage, the energy density of supercapacitors should be enhanced. Therefore, the current Special Issue focuses on the development of novel electrodes and electrolytes for the enhancement of the energy density of the device.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Karim Zaghib

Department of Chemical and
Materials Engineering, Concordia
University, Montréal, QC H3G
1M8, Canada

Message from the Editor-in-Chief

Take the opportunity to publish your original scientific work or a review paper concerning battery materials, battery technology or battery application within this new open access journal. Along with material science, the journal also addresses engineering and multidisciplinary research topics, such as cell and system design or storage system integration. Publishing proffers visibility for the benefit of other experts and facilitates discussion of the research results within the field. You are invited to publish your work, read published papers and to participate in topical discussions.

Author Benefits

Open Access:— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [Inspec](#), [Ei Compendex](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (Electrochemistry) / CiteScore - Q2 (Electrical and Electronic Engineering)
