Storage Technology (EES),  
Technical University München  
(TUM), Arcisstrasse 21, 80333  
Munich, Germany

Deadline for manuscript  
submissions:  
**closed (31 December 2020)**

### Message from the Guest Editor

Dear Colleagues,

*Batteries* is an international, open access journal of battery technology and materials. In this Special Issue, “Feature Papers”, we will publish outstanding contributions in the main fields covered by the journal, which will make a great contribution to the community. The entire issue will be published in book format after it is closed.

Topics of interest include, but are not limited to the following:

- Battery electrochemistry
- Active and passive materials and components
- Cell design and stack technology
- Processing and manufacturing
- Battery systems and applications
- Modeling and control
- Battery performance and testing
- Charging technologies
- Battery monitoring, management and diagnostics
- Thermal management
- Hybrid battery systems
- Safety and reliability
- Lifetime and degradation
- Costs and market

Submitted papers will be evaluated by the Editors firstly. Please note that all the papers will be subjected to thorough and rigorous peer review.

an Open Access Journal by MDPI

## Editor-in-Chief

### Prof. Dr. Karim Zaghib

Department of Chemical and  
Materials Engineering, Concordia  
University, Montréal, QC H3G  
1M8, Canada

## Message from the Editor-in-Chief

Take the opportunity to publish your original scientific work or a review paper concerning battery materials, battery technology or battery application within this new open access journal. Along with material science, the journal also addresses engineering and multidisciplinary research topics, such as cell and system design or storage system integration. Publishing proffers visibility for the benefit of other experts and facilitates discussion of the research results within the field. You are invited to publish your work, read published papers and to participate in topical discussions.

## Author Benefits

**Open Access:**— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [Inspec](#), [Ei Compendex](#), [CAPlus / SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (Electrochemistry) / CiteScore - Q2 (Electrical and Electronic Engineering)
