Special Issue

Bridging Behavioral Sciences and Sports Sciences

Message from the Guest Editors

Human behaviour is one of the most widely studied research areas due to the interest in understanding the behavioural interaction between individuals, environments, and tasks. Specifically, science has sought answers in several knowledge areas such as psycho-science, neuroscience, physiology, biomechanics, and social sciences. Sport science encompasses all these, yet it tends to integrate them to understand learning and motor control, indicators of health and well-being, and sport performance. Therefore, it is important to build bridges between behavioural sciences and sports science in order to understand the interactions of the different factors that mediate human motor and cognitive behaviour during physical activity, exercise, and sport. This Special Issue aims to compile the latest news and advances in scientific research in the complementary areas of behavioural sciences and sports science. About the Journal

Message from the Editor-in-Chief

With warm greetings, it is a pleasure to invite you to contribute a research article or comprehensive review for consideration and publication in *Behavioral Sciences*. *Behavioral Sciences* is an international, scientific, open access journal providing an advanced forum for discussions and research regarding the intersection between psychiatry, neuroscience, psychology, cognitive and behavioral sciences, and behavioral biology. More information are available at: https://www.mdpi.com/journal/behavsci. We would be pleased to welcome you as one of our authors and have the opportunity to consider your work for publication.

Editor-in-Chief

Prof. Dr. Jerrell Cassady
Department of Educational Psychology, Ball State University, Muncie, IN 47306, USA

Author Benefits

High Visibility:
indexed within Scopus, SSCI (Web of Science), PubMed, PMC, Embase, PsycInfo, and other databases.

Journal Rank:
JCR - Q2 (Psychology, Multidisciplinary) / CiteScore - Q2 (Development)

Rapid Publication:
manuscripts are peer-reviewed and a first decision is provided to authors approximately 32 days after submission; acceptance to publication is undertaken in 3.6 days (median values for papers published in this journal in the second half of 2025).
