Deadline for manuscript  
submissions:  
**closed (15 August 2023)**

### Message from the Guest Editors

Nanoparticles/nanomaterials have found significant application because of their adaptability and the availability of environmentally friendly, cost-effective, and simple techniques for their synthesis. Nanoscale metal-based materials now play an important role in people's lives, and their effect is readily apparent in the scientific and industrial communities. Metal nanoparticles have several uses in nanomedicine, and as a result, green methods are being heavily utilized as a valuable resource. The biological method is not only safe for the surrounding ecosystem, but it also results in a highly efficient and cost-effective synthesis. Because of these benefits, it has found widespread use in various fields, including drug delivery, gene therapy, nanobiotechnology, medicine, biomedical engineering, and pharmacology.

Therefore, this Special Issue, "Biomedical potential of bioengineered nanoparticles", focuses on original research papers and comprehensive reviews that deal with cutting-edge experimental and computational methodologies for multiscale biomedical investigations of bioengineered nanoparticles.

## Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Bioengineering* (ISSN 2306-5354). *Bioengineering* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. *Bioengineering* provides an advanced forum for the science and technology of bioengineering. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPlus / SciFinder, Inspec, and other databases.

**Journal Rank:** JCR - Q2 (*Engineering, Biomedical*)

**Rapid Publication:** manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.6 days after submission; acceptance to publication is undertaken in 3.1 days (median values for papers published in this journal in the first half of 2024).
