Deadline for manuscript
submissions:
closed (30 June 2020)

Message from the Guest Editor

The current Special Issue emphasizes the biotechnological engineering of novel biocomposite inks for various 3D printing technologies, also considering important aspects in the production and use of bioinks. Topics include, but are not limited to:

- Synthesis, production and applications of novel inks and bioinks
- Hydrogels, photopolymerizable inks, solid inks
- Surface modification and cross-linking approaches
- Cytotoxicity, genotoxicity, immunogenic properties of inks
- 3D printing technology such as fused deposition modeling, direct ink writing, digital light processing, inkjet and laser assisted bioprinting
- Applications in tissue engineering, wound dressings, cell models, artificial skin, cancer models, prosthetic devices, orthoses
- Characterisation, including structural, physical, chemical, biological and mechanical properties

an Open Access Journal by MDPI

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Bioengineering* (ISSN 2306-5354). *Bioengineering* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. *Bioengineering* provides an advanced forum for the science and technology of bioengineering. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q2 (Engineering, Biomedical)

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.4 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the second half of 2024).
