## Artificial Intelligence in Healthcare

Guest Editors:

**Prof. Dr. Jinshan Tang**

Department of Health  
Administration and Policy,  
George Mason University, Fairfax,  
VA 22030, USA

**Prof. Dr. Sos Aгаian**

Computer Science Department,  
City University of New York, New  
York, NY 10314, USA

Deadline for manuscript  
submissions:

**28 February 2025**

### Message from the Guest Editors

AI has advanced significantly in the past ten years, offering great potential to revolutionize the healthcare system. AI can be applied to various aspects of healthcare, such as disease detection and diagnosis, prognosis prediction, pre-treatment analysis, post-treatment evaluation, pandemic monitoring, and more.

However, AI still faces many challenges in medical applications and requires further development to meet the demands of real health scenarios. One of these challenges is that the performance of healthcare AI systems often needs to meet real-world needs. Therefore, enhancing the performance of healthcare AI systems is a crucial issue. In order to address this issue, conducting in-depth research on key technologies within the various subsystems employed in healthcare AI systems is essential and necessary.

This Special Issue aims to attract high-quality papers on AI in healthcare and address the complex challenges that arise within the context of healthcare applications. The Special Issue's focus spans various fields, such as machine learning, medical image processing, pattern recognition, and others.

## Editor-in-Chief

**Prof. Dr. Anthony Guiseppi-Elie**

Department of Biomedical  
Engineering, Texas A&M  
University, College Station, TX  
77843, USA

## Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Bioengineering* (ISSN 2306-5354). *Bioengineering* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. *Bioengineering* provides an advanced forum for the science and technology of bioengineering. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPlus / SciFinder, Inspec, and other databases.

**Journal Rank:** JCR - Q2 (*Engineering, Biomedical*)

**Rapid Publication:** manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.6 days after submission; acceptance to publication is undertaken in 3.1 days (median values for papers published in this journal in the first half of 2024).
