### Message from the Guest Editors

This Special Issue of *Bioengineering* is dedicated to manuscripts focused on pathophysiology and translational research of retinal diseases. We accept manuscripts associated with basic, applied, and translational research on all aspects of retinal diseases, including inherited disorders and acquired diseases. Topics of interest include (but are not limited to) retinal pathophysiology, retinal cell biology, biological and non-biological means for vision restoration, and other related topics.

Deadline for manuscript  
submissions:

**30 November 2024**

## Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Bioengineering* (ISSN 2306-5354). *Bioengineering* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. *Bioengineering* provides an advanced forum for the science and technology of bioengineering. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPlus / SciFinder, Inspec, and other databases.

**Journal Rank:** JCR - Q2 (*Engineering, Biomedical*)

**Rapid Publication:** manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.6 days after submission; acceptance to publication is undertaken in 3.1 days (median values for papers published in this journal in the first half of 2024).
