

Biomedical Applications of Information Technology: History, Trends and Future Challenges

Guest Editors:

Dr. Giuseppe Coviello

Dr. Giuseppe Brunetti

Dr. Gianfranco Avitabile

Dr. Antonello Florio

Deadline for manuscript
submissions:

closed (30 June 2024)

Message from the Guest Editors

Since the middle of the 20th century, Information Technology (IT) has led to critical changes in every field of everyday life. The same changes have also affected medicine. Over the years, medicine has pervasively adopted IT tools to simplify or enhance the quality of diagnosis and support patients' recovery. In this Special Issue, we aim to cover the history of IT technologies developed for biomedical applications, along with their actual trends and future challenges they will need to overcome. Reviews, surveys, and novel research papers on specific subjects are welcome, as well as interdisciplinary works.

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Bioengineering* (ISSN 2306-5354). *Bioengineering* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. *Bioengineering* provides an advanced forum for the science and technology of bioengineering. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Biomedical*)

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.6 days after submission; acceptance to publication is undertaken in 3.1 days (median values for papers published in this journal in the first half of 2024).
