## Bioprocess Engineering for Advanced Therapeutic Medicinal Products (ATMPs)

Guest Editor:

**Prof. Dr. Denise Salzig**

Institute of Bioprocess  
Engineering and Pharmaceutical  
Technology, University of Applied  
Sciences Mittelhessen,  
Wiesenstrasse 14, 35390 Giessen,  
Germany

Deadline for manuscript  
submissions:

**closed (31 May 2022)**

### Message from the Guest Editor

This Special issue invites contributions on the process development of ATMPs. The scope covers theoretical and practical investigation of ATMP bioprocessing either in up- or downstream process development. As vaccines are not considered as ATMPs, papers related to vaccine process development are not within the scope of this issue.

This Special Issue is open for comprehensive review and original research papers and addresses the following topics:

- Up- and downstream development for ATMPs, including adaption of existing processes and process intensification;
- Manufacturing challenges;
- Theoretical process set-up (bioengineering calculations, CFD simulations);
- Novel bioreactor systems;
- Innovative downstream strategies;
- Online monitoring tools and process automation;
- Solution for major technical bottlenecks related to ATMP bioprocessing.

I look forward to your contributions and all the efforts taken in the process development and the manufacturing of advanced therapeutic medicinal products.

## Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Bioengineering* (ISSN 2306-5354). *Bioengineering* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. *Bioengineering* provides an advanced forum for the science and technology of bioengineering. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPlus / SciFinder, Inspec, and other databases.

**Journal Rank:** JCR - Q2 (*Engineering, Biomedical*)

**Rapid Publication:** manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.6 days after submission; acceptance to publication is undertaken in 3.1 days (median values for papers published in this journal in the first half of 2024).
