Future Use of Technology and Materials for Dental Restoration

Guest Editor:

Prof. Dr. Roy George
School of Dentistry and Oral
Health, Griffith University,
Queensland, Australia

Deadline for manuscript
submissions:
closed (31 January 2021)

Message from the Guest Editor

Dear Colleagues,

This Special Issue looks at innovations of technology and dental materials that could make a substantial impact on diagnosis, restoration or management of dental patients. Original scientific work that could impact all areas of dentistry and dental technology is welcome. Comprehensive review papers revising the current developments in this field can also be considered for publication.

Special consideration will be given to submissions related to lasers, bioactive restorative materials, and technology that would help to enhance diagnosis and patient management.

We encourage authors to submit a tentative abstract ahead of submitting the full paper for a preliminary check.

Prof. Dr. Roy George
Guest Editor

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Bioengineering* (ISSN 2306-5354). *Bioengineering* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. *Bioengineering* provides an advanced forum for the science and technology of bioengineering. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Biomedical*)

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.6 days after submission; acceptance to publication is undertaken in 3.1 days (median values for papers published in this journal in the first half of 2024).
